

**RESOLUTION OF CITY OF HINTON, WEST VIRGINIA
IN SUPPORT OF ADOPTING THE COMPLETE STREETS GUIDING PRINCIPALS**

WHEREAS, streets constitute a large and valuable portion of public space and

WHEREAS, streets need to be safe, convenient, and connected corridors for all transportation modes and users, with particular emphasis on the most vulnerable users; and

WHEREAS, Complete Streets Guiding Principles encourage planning, designing, constructing, operating, and maintaining transportation systems that promote safe and convenient travel for people of all ages and abilities – pedestrians, bicyclists, and motor vehicle drivers; and

WHEREAS, streets should be designed to complement and support the adjoining land uses, buildings, and community character, such that the resulting street environment is attractive and of appropriate scale; and

WHEREAS, streets that integrate and invite multiple transportation choices including pedestrians, bicycles, public transit, and motor vehicles contribute to the public life of a community, sustainable economic development and efficient movement of people and goods.

WHEREAS, encouraging non-motorized transportation improves public health, reduces fuel consumption, and maximizes the use of roadway infrastructure; and

WHEREAS, other jurisdictions and agencies nationwide have adopted Complete Streets policies or legislation, including the United States Department of Transportation, the West Virginia Department of Transportation and a growing number of cities; and

WHEREAS, the council of the City of Hinton has determined that it is in the best interest of the City of Hinton for this resolution to be approved and adopted.

NOW THEREFORE BE IT RESOLVED the Council of the City of Hinton adopts the Complete Streets Guiding Principles, as shown in the exhibit (A) attached hereto and made part of this Resolution, and that said exhibit (A) is hereby approved and adopted.

RESOLVED, the City Manager and Public Works Director as responsible and are hereby authorized to do all deeds necessary in the accomplishment of the hereinabove.

PASSED, ADOPTED AND APPROVED this 15th day of October, 2019.

CITY OF HINTON, WEST VIRGINIA

Name: Joseph M. Blankenship Title: Mayor

Exhibit "A"

Complete Streets Guiding Principals

VISION:

Every public right-of-way shall be planned, designed, constructed, and maintained such that each citizen of and visitor to the City of Oak Hill will have transportation options to safely and conveniently travel to their destinations.

PRINCIPLES:

- Each phase in the life of roadway, including planning, funding designing, constructing, operating, and maintaining of new and modified streets, will be an opportunity to improve the integration of all transportation modes in the roadway.
- Sound engineering and planning judgement will produce context sensitive designs that will account for the unique circumstances of different users, streets, neighborhoods, and activity centers.
- The transportation network should be planned and constructed as a well-connected system that encourages multiple connections and destinations.
- Complete Streets may be achieved through single projects, incrementally through a series of smaller improvements, or through maintenance activities.
- Complete Streets Principles may not apply to maintenance activities designed to keep assets in serviceable condition (e.g., moving, sweeping, and spot repair, or interim measures on detour or haul routes).

STRATEGIES:

- Complete Streets Elements will be considered when developing, modifying and updating City plans, manuals, rules, regulations, and programs, as appropriate.
- Design Standards should include performance measures for tracking the progress of implementing the Complete Street Guiding Principles and detail the procedures for granting exceptions.
- American Association of State Highway and Transportation Officials (AASHTO)-compliant transportation facilities for all modes, including pedestrian, bicycle, public transit, and motor vehicle, should be provided on all roadways.
- Context sensitive streetscape plans that incorporate appropriate native plants and landscaping materials should be developed whenever a street is newly constructed, or relocated.
- Identify all current and future funding sources available for achieving Complete Streets Guiding Principles.
- Utilize inter-department project coordination to promote the most responsible and efficient use of fiscal resources for activities that occur within the public right-of-way.
- Train pertinent City staff on the content of the Complete Streets Guiding Principles and best practices for implementing the policy.
